03. Participants : 27 nos.
04. Communication Method :
  - Field demonstration
  - Discussions
05. Syllabus :
  - Bio-methanation technology
  - Azolla technology
  - Vermi technology
  - Water harvesting technology
  - Terrace garden etc.
06. Resource person : Smt.S.Premalatha  
VK-Nardep

Dear Sir,

Greetings from PRADAN!

Professional Assistance for Development Action (PRADAN) is a not for profit organisation working on livelihoods development. In Tamil Nadu, we do farm based livelihoods development through rehabilitation of tanks, ponds, creation of farm ponds. Also fallow lands are brought under cultivation by way of removal of Prosopis and other deep rooted weeds.

Our team (24 persons) planned to visit Vivekanda Kendra to review our last year progress and plan for 2025-26. As part of this two days event, we would like to visit NARDEP to understand the activities on natural resources development. We request you to give an appointment to visit our programs and have a discussion (**Half day**) with you or your team on 29 or 30th of May, 2025.

Most of the participants are directly working with the village communities, the visit will help them to see the other aspects/activities on NRM.

Please share your convenient time for our visit.

Thanks and regards,

Adhinarayanan R
