**Mr. V. Ramakrishnan**

Director

Vivekananda Kendra – NARDEP

Kanyakumari.

Dear Sir,

Greetings!

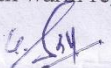

**Sub:** Request for Technical Support to Develop Water Conservation Structures

With reference to our discussion on 20.08.2025 at your office, I am writing to formally request your technical support in developing water conservation structures—specifically, Artificial Recharge Shafts—at two identified locations: Irukkandurai and Seelathikulam in Tirunelveli District.

We greatly value your expertise and look forward to collaborating with Vivekananda Kendra – NARDEP in implementing sustainable water management solutions in these areas.

Thank you very much for your kind cooperation and continued support in this initiative.

With warm regards,

  
V. Sathu,

Chief Functionary, aird
